

International Symposium on Multidisciplinary Sciences on the Earth

University of Tokyo, Takeda Hall

November 18(Tue)~19(Wed) 2014

Sponsored by Research Center for Science Systems (rcss), Japan Society
for the Promotion of Science (JSPS)

Co-organized by Earthquake Research Institute., Tokyo University

Scope of the symposium

The symposium covers a wide area of natural sciences related to the Earth such as physics, geophysics, geochemistry, geology, environmental science and life science, *etc.*

The goal of the symposium is to give a general overview of the recent research status of these Earth-related sciences from a wider perspective, with emphasis on its interdisciplinary aspect and the inter-relationship between different areas, eventually to give a prospect for future development in a broad context.

During the two days of the symposium, we wish to consider with the audience where we, the human beings, are now and where we are going.

Organizers

Hikaru Kawamura (Osaka Univ. , O)
Masahiro Chigira (Kyoto Univ.)
Naoyuki Kato (Univ. Tokyo)
Satoru Nakashima (Osaka Univ.)
Eiichi Tajika (Univ. Tokyo)
Teruo Yamashita (Univ. Tokyo)

Sponsors

Research Center for Science Systems (rcss),
Japan Society for the Promotion of Science (JSPS)

Co-organized by

Earthquake Research Institute (ERI)
Univ. of Tokyo

Invited speakers

Nov. 18 (Tue.)

Hiroo Kanamori (Caltech)
Gaku Kimura (Univ. of Tokyo)
Osamu Fujiwara (AIST)
Kosuke Heki (Hokkaido Univ.)
John J. Clague (Simon Fraser Univ.)
Masahiro Chigira (Kyoto Univ.)

Dec. 19 (Wed.)

Eiichi Tajika (Univ. of Tokyo)
Ayako Abe-Ouchi (Univ. of Tokyo)
Setsuya Nakada (Univ. of Tokyo)
Craig M. Bethke (Univ. of Illinois)
Toru Nakashizuka (Tohoku Univ.)
